Enough already. Any further litigation is not in the consumers interest. This is about bashing success AND money. Letting Time-Warner-AOL, Sun Microsystems and Oracle use the Justice Department to fight their market battles is ridiculous. State AG's in particular are doing a consumers a disservice. All they want is money and political recognition. Let the free market work. If MS fails the consumer they will fail without this total waste of time and resources.

Thanks,

Tom Stephenson
